Scoring: The Tournament Champion is determined by Total Tournament Points.

Tournament Points are awarded as follows: Released Billfish: Blue Marlin = 500 points, White Marlin = 150 points, Sailfish = 100 points. Weighed Blue Marlin = 1 point per pound + 900 bonus points for 600 lbs and up. Misidentified billfish will receive 100 Sailfish points after video review and at the discretion of the video reviewer. Example: if a boat brings a release video with a verification form identifying a fish as a Blue Marlin but it is identified as a White Marlin by video reviewer, it will only count for 100 Sailfish points.

Billfish Scoring is the same as Total Tournament Points: Released Billfish: Blue Marlin = 500 points, White Marlin = 150 points, and Sailfish = 100 points. Weighed Blue Marlin = 1 point per pound + 900 bonus points for 600 lbs and up.

Blue Marlin Scoring is: 500 points for released Blue Marlin and weighed Blue Marlin receive 1 point per pound + 900 bonus points for 600 lbs and up.

Scoring Examples:

1. *Catch and release 2 blue marlin = 1000 total tournament points, 1000 billfish points, and 1000 blue marlin points.*
2. *Catch and release 1 blue marlin and boat 1 blue marlin weighing 600lbs = 2000 total tournament points, 2000 billfish points, and 2000 blue marlin points.*

Tie Breakers: First to the total: time for the tie breaker is based on the verified release or boated fish time.

LONE STAR SHOOTOUT
7/23/24 – 7/28/24

Billfish Release: To obtain release points, each release must:

1. **Be reported and verified** as set out in the Reporting of Fish section.
 2. Be documented by the completion of an HBGFC "SHOOTOUT" Verification form.
 3. Be verified by the tournament video review. (See video rules).
- **Very important: Do not pull any billfish into the boat. Video showing billfish pulled over the gunnel, into a tuna door or otherwise brought into the boat will be disqualified.**

Reporting of Fish: When a billfish has been boated or released, **you must notify** a Tournament Committee Boat or designated land based official immediately. The name of boat, name of angler, species of fish and release or boated time must be reported. If contact with a Committee boat or land-based official can't be made, you must report the catch to another Tournament boat. **For verification purposes, please make note on your Catch Report form** of the name of the boat and the radio operator that took your report and the time of the report. See laminated Committee Boats & Communication sheet for more details. **All billfish must be reported as soon as is possible after the catch to qualify for points.** It is the responsibility of the captain and/or owner to do whatever is necessary to report your catches as soon as possible after the catch. Note that text message reporting to the land-based contact numbers is encouraged. **Use your Catch Report Form.**

Tackle and Angling Rules: All applicable federal and state regulations apply as Tournament rules. This includes the rule to use circle hooks if bait, of any kind, is used when targeting billfish. It is the responsibility of all participants to be familiar with IGFA rules, and all applicable federal and state regulations. All IGFA saltwater angling and tackle rules apply with the following exceptions:

1. An angler may receive assistance getting the rod to the chair or harness immediately after hookup. The angler must then fight the fish unassisted.
2. An angler or mate may set the hook and pass the rod to another angler after hookup. This may occur one time only immediately after hookup.

Fishing Line Requirements: Any line (monofilament, Dacron or braided line) with a manufacturer's stated breaking strength of 100 pounds or less; also accepted is any line labeled as "IGFA-rated or Tournament-rated" with a breaking strength of 130 pounds or less. Backing of ANY SIZE is permitted as long as the top shot does not exceed 130lb. test IGFA or 100lb manufacturers stated. ***IGFA Top Shot & backing rule.***

Eligible Waters: Tournament fishing of any kind is restricted to waters north of the 26-degree latitude line, U.S. waters only.

Weighed Fish Minimum Lengths and Weights: Weighed Blue Marlin must meet a minimum **of 106 inches** long, measured by lower jaw fork length. Tuna, Wahoo and Dolphin must meet a minimum weight of 25 lbs. All weighed fish must be in fresh, edible condition. No mutilated, cut, frozen or questionable fish, as determined by the weighmaster and Tournament Committee, will be weighed. Any decision of the Weighmaster and the Tournament Committee is final. 7/23/24 – 7/28/24

Video Release Rules: To obtain release points the video must **clearly show** the following **in continuous, unedited video:**

- Angler fighting the fish
- Object of the day
- Identification of the fish
- Mate with **leader in hand**
- **Catch and release** of the fish by clearly showing at least one of the following events;
 1. Fish swimming away following its release.
 2. The hook being removed or leader being cut.
 3. The hook pulling free or leader breaking **while leader is in hand.**
- **The correct time immediately following the release. Video device time and date stamp is strongly preferred. The time on a GPS shown clearly in the video will be accepted. Note that the verified video release time is a possible tie breaker.**

To obtain release points the video must be:

1. **Recorded continuously on a single video device** from a time starting prior to the leader being in hand until clearly showing the time of the release. If the identification of the fish is prior to the above starting point, then the video must be continuous starting from the time of identification of the fish.
2. **Presented for review unedited and in the device that it was recorded on and with standard connections or memory card enabling playback on a tablet or computer monitor. Please have your video play back set up at the start of your first released fish.**

Video Review Policy: No more than 1 team member may accompany the video in the review process. In the event the decision of a video reviewer is disputed, a request can be made to put the video to further review. After further review, as determined by the tournament committee, a final decision supported by a majority of the reviewers will be the final decision and may not be disputed or protested. If uncertainty remains to prevent a final decision as to species identification, points will be awarded at the least value of billfish release points. **Example: if there remains uncertainty that a released fish is a blue marlin or a white marlin, points will be awarded for a sailfish and the final decision and awarding of points may not be disputed or protested.** The Tournament Committee will determine the video reviewers at its sole, complete and absolute discretion.

Weigh in procedures and requirements: Weigh in for 2024 is at the POC Fishing Center weigh station on the ICW just west of the fuel dock. All boats that desire to weigh fish or submit videos must radio (VHF Channel 68) tournament control, upon entering (not before) the POC town jetties. You will be acknowledged and placed in the weigh station or video review que at that time. If you only have video, please state so to receive further instructions. For weighing fish, only 1 boat will be allowed at the weigh station at a time. **You must have your weighed fish forms filled out and ready to hand over prior to entering the weigh station slip.**

Each Tournament participant agrees and understands that there is no appeal from the final ruling of the Tournament Committee, and any legal proceedings or other effort to undermine, dispute or circumvent the final ruling of the Tournament Committee will result in automatic disqualification from the Tournament, with no refund.
